DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/24/2003 has been entered.

Status of claims

Claims 2, 6-12, 14 and 16-18 were canceled by applicants.

Claims 1, 3-5, 13 15 as amended and new claims 19-21 [paper No. 25 filed 6/24/2003] are pending and subject to restriction requirement.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 3, 4, 15, 19 and 21, drawn to a method of activating an oocyte *in vitro*, classified in class 435, subclass 375, for example.
- II. Claims 5, 13 and 20, drawn to a method of inhibiting oocyte activation during fertilization *in vitro*, classified in class 435, subclass 2, for example.

The inventions are distinct, each from the other because of the following reasons:

The inventions of group I and II are distinct because they are directed to two different methods such as method for activation oocyte and method for inhibiting oocyte activation. The methods as claimed require different active steps of treating oocytes with different agents as claimed and, thus, the claimed method results in obtaining different products. Because these

Art Unit: 1651

inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because they are drawn to divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
